VOL. 103, NO. 41 | All Departments: OX7-4671 | CAMERON, MILAM COUNTY, TEXAS, THURSDAY, JAN. 3, 1963 | 10 PAGES TODAY

NEW REPRESENTATIVE -- District 45 Rep. Milton Schiller goes to the first session of the 1963 Texas Legislature Tuesday. Above, he is being sworn in by outgoing House Speaker James Turman in Capitol ceremonies. Schiller defeated Herman Yezak, of Bremond, former Texas House Dean, in the May, 1962 Democratic primary. Schiller is a Cameron businessman and former president of the Cameron School Board and Cameron Chamber of Commerce. He is the first Cameron representative from this District since 1948, when Yezak carried the then two - county district of Milam - Robertson Counties.

Expert Tells How Investments Work

Alfred Broad, representative for the Austin office of a major brokerage house, Wednesday described six factors influencing investments.

Speaking before Cameron Rotarians, Broad listed these six factors as basic to the future of stocks and bonds:

Population growth, higher living standards, longer life expectancy new discoveries, inflation and the effects of inflation on investments.

TWO EXTREMES

Broad listed the two extremes of investments and said that "most of us are somewhere in between" in interests in investments.

He cited the basic income type from perferred stocks and bonds yielding a steady return with low risk, noting such stock staples as utilities.

And he noted the other extreme or speculative stocks which are bought to yield a quicker return on investment. These are "more volatile stocks, not cheap, but able to produce fast returns for those who want to turn their money. Some range as high as $165 to $188 per share," he said.

Broad said that the quickest way to lose money is to go in for promotions, tips, rumors about new discoveries or stock splits. He said that stock frauds are going on right now in Texas in land promotion and security sales not listed with Texas Security Commission.

MORE 'HANDS'

Investments make it possible for people with money beyond what is needed for their family, insurance and emergencies to diversify their investments, "to do more with their money than their own hands can do."

He said it makes possible taking the risk from having all of a person's investment affected by geographical problems such as the Texas drouth of early 1950's.

"The investor should know his markets and he can get this advice from brokerage firms whose service is to assist in investing his money in the stock market," Broad said.

"People moving in haste to invest are motivated by greed, the best way to lose money," Broad noted.

He said that "most of us look for good quality stocks which are somewhere between the low risk and the speculative types."

In noting the influence of new discoveries, Broad said that about 50 of the fastest growing corporations today were not even in business 15 years ago.

He was introduced by Lester Williams, program chairman. Also introduced was Ben Bedinger, also with the Austin office of Merrill, Lynch, Pierce, Fenner and Smith.

Fire Razes Home On North Scott St.

YOUNGSTER LOOKS FOR KIDS IN HOUSE

A roaring fire completely destroyed the Robert Halpain home at 302 North Scott, Cameron about 2:15 p. m. Wednesday. The house was a mass of flame and smoke when firemen arrived.

Nine - year - old James Halpain was in the house when the fire started. He ran thru the fire to look for his younger brother and sister, Ricky 6 and Debbie 5.

But the two younger Halpains were downtown with their mother and were safe. James Halpain had his hair singed but was not injured.

Two other children, Riley and Charles, went to neighbor's homes. The father was also away when the fire started.

At presstime, Fire Marshall John Eanes had not been able to determine the loss or the cause of the fire. All of the belongings of the family were destroyed.

Firemen battled the fire for over an hour before they were able to bring the blasing single - story, frame house under control.

Small popping sounds that firemen thought were exploding gunshells or fireworks occurred when the blaze started.

Caperton To Be Assistant To Cong. W. R. Poage

Cong. W. R. Poage, of the 11th Congressional District, today announced the appointment of Narvie Caperton, of Cameron, to be his assistant.

Caperton is a native of Milam County. For many years he has been rural carrier out of the Cameron Post Office. He is owner and manager of Radio Station KMIL, Cameron, and has for years been engaged in the mercantile business with stores at Cameron, Rosebud and Lott.

He will succeed Dr. Robert T. Miller, of Waco, who resigned as secretary to Cong. Poage to become head of the Political Science Department at Baylor University. The Congressman said that it would be difficult to replace Dr. Miller, but that he felt he was fortunate in securing Caperton.

The Capertons will leave for Washington about February 1. They will be in Washington throughout the session of Congress, but will continue to maintain their home in Texas.

Caperton recently sold his mercantile businesses and will devote his entire time to the problems of the 11th Congressional District.

Mr. and Mrs. Caperton make their home in Cameron where he is Sunday School Superintendent at the First Baptist Church. They have one daughter, Mrs. Alton Logan, who lives in Houston. He has been active in civic activities in Milam County for many years.

Humble Refutes E-Texas Survey

Judge Don G. Humble last week took issue with the way the East Texas Chamber of Commerce surveyed the financial status of Milam County.

His criticism of the annual survey followed a report in The Temple Telegram. Reports on the survey which gave Milam County two of a possible five stars also appeared earlier in The Cameron Herald and Rockdale Reporter.

"Their (East Texas Chamber) report leads one to believe that Milam County has been receiving certain awards in the past which have been withheld this year because an audit and tax survey revealed that such awards were not due," Humble said.

NO AUDIT TAKEN

"The East Texas C-C has not audited Milam County's books or financial records and the only survey they have made is in comparing the taxes collected with the tax rate multiplied by the assessed valuation. No one audited Milam County's books, therefore Milam County did not lose anything after an audit," he asserted.

He went on to note that Milam County has shown a steady increase in its financial stature which has been the result of conservative government by the Commissioner's Court.

The East Texas Chamber survey granted two stars to Milam County for operating on a cash basis and having a net debt below the state average, the county virtually being debt free.

The survey did not grant stars because the East Texas survey said the budget showed actual expenses of $620,122 over budgeted expenses of $518,642.01, that Milam collected 93.83 per cent of taxes, under the East Texas' Chamber's standard of 95 per cent, and that the 95 cents per $100 valuation was above the state average of 84.9 cents.

Humble refuted these findings by pointing out:

Four items included as expenditures totaling $102,914.17 were not expenditures but were: $56,269.25 in time warrants, $5,775 as a book entry which is paid for assessing taxes and is a transfer from one fund to another, $39,729.67 in transfer of funds from the general to officers salary fund, and $10,117.50 in payment of back money, not actually an expenditure.

Humble pointed out the County actually underspent its budget and showed about $12,000 more in cash on hand than at the beginning of the fiscal year. Milam had $176,336.53 at the end of the year compared to $164,395.07 to start.

He said also that the County actually collected slightly over 97 per cent in taxes when $976,000 in "unknown property" which has been historically carried forward on the rolls. Humble said this property could actually be removed from the rolls, but has not been because the State pays the County to assess it.

"We are quite proud of our attainments in the past four years," Humble said. "It hurts to have a negative approach thrown at you when it is undeserved."

He emphasized his objection to the manner in which the East Texas Chamber of Commerce checks the county's fiscal operation.

One Accident In Milam County For Holiday Period

Only an accident in which one was slightly injured Saturday afternoon marred the record on the Milam County Highways during the New Year weekend. During the 12 day Operation Deathwatch by the Department of Public Safety there were four minor property damage accidents in Milam County.

Saturday at 2 p. m. a 1959 Cadillac driven by Pauline Catlett Smith of Houston collided with a 1962 Ford driven by Linda Rae Cotten of Austin. The accident took place west of Milano at the intersection. The Cotten car was traveling west on US 79 according to Gilbert Smith, investigating Highway Patrolman.

Passenger in the Cotten car were Evelyn and Jessie Smith of Austin. Evelyn Smith was slightly injured in the wreck.

The Milam County Patrolmen reported an otherwise quiet weekend. There were no citations issued for drunk driving in the Operation Deathwatch period, according to the DPS Patrolmen.

Last Rites Held For Victim Found Burned To Death

Funeral services were held 9 a. m. Wednesday for Edward F. Chirhart of Temple, who was found dead in his blazing station wagon 9:30 a. m. Monday off FM 53 near Rosebud.

Services were held at St. Mary's Catholic Church in Temple.

The burning station wagon was found on a dirt road about a quarter mile from the highway by Robert and Frank Dach, who live near the scene.

Falls County Sheriff Brady Pamplin said that all four doors of the station wagon were locked and the window in the rear of the wagon was open making a draft for the fire.

Investigating officials believe that the blaze was set on purpose, but had not determined who had set the fire. A can of Coleman fluid was found on the floorboard with the top of the can in the ash tray.

Additional checking by investigating officers has turned up no new clues.

No New Leads On House Fire Arson

Milam County Sheriff Carl Black Wednesday told The Herald that there were no new leads on the arson fire of the Jack Prescott home Nov. 20.

A test of soil taken where the blaze started showed a coal oil substance.

Prescott has started remodeling the home.

Milam ASCS Report

Preliminary returns show that growers of upland cotton in a referendum in cotton producing states December 11 approved marketing quotas for the 1963 crop by a 93.7 favorable vote, the U. S. Department of Agriculture reported.

Early results indicate a total vote of 214,657. Of this tital, 201,169 voted for and 13,488 against.

Since more than the necessary two - thirds of the growers voting have approved quotas, marketing quotas will continue in effect for next year's cotton crop, with growers who exceed their farm acreage allotments being subject to penalties on the farm's excess production. Price support will be available to growers who comply with the farm's acreage allotment.

The marketing quota penalty on "excess" cotton is 50 percent of the cotton parity price as of June 1963.

In the preliminary tabulation of votes in the December 11 peanut referendum, 97 percent of the growers voting approved continuing quotas for another 3-year period. The vote was 40,872 for and 1,277 against, for a total of 42,149 votes. This means marketing quotas will be in effect for the 1963, 1964, and 1965 peanut crops.

Under the quota program, marketing penalties will apply to "excess peanuts of growers who do not comply with their acreage allotments. Price support will be available to eligible growers who comply with their peanut allotments at the full level of the available support. The law directs peanut price support under quotas at a level between 75 and 90 percent of parity, with the minimum depending upon the supply. The marketing quota penalty is equal to 75 percent of the price support level.

STOP DOG'S BARKING

A barking dog – especially at night – is an abomination to neighbors and master alike.

Prevent your dog from annoying neighbors and keeping your own household awake by using a simple trick.

Attach a lawn hose to your dog's pen, the nozzle set for a wide spray. Whenever dog starts barking, turn on the water so he will be sprayed. Usually a few treatmems will be enough.

But be sure he doesn't see you do it.

NEW TYPE TARGET

You probably have used every type of gun target in your search for novelty.

Here's how to make a new kind of target for practice shooting.

Draw a bullseye on an old window shade, then mount roller and shade onto two stakes equipped with brackets. Pull down shade and start shooting.

Bullet holes can be patched with tape.

Officers To Be Installed For Hermann Sons

SAN ANTONIO — Officers of five Hermann Sons Lodges and two Hermann Sons youth chapters will be installed in a ceremony at 2:30 p. m. Sunday, Jan 6. in Tom Sefcik Hall at Seaton in Bell County. The location is on Highway 53 eight miles east of Temple.

Installing officer will be William W. Dielmann Jr., San Antonio, Grand Lodge secretary - treasurer. Dielmann will be assisted by Frank Sievers, San Antonio; Herman Sons Grand Lodge auditor; John O. Reitzer, San Antonio, Grand Lodge head bookkeeper; and Walter Prescher of Clifton, Grand Lodge district supervisor.

Lodges to have their officers installed in this ceremony are: Temple Hermann Sons Lodge No. 5, Temple; Rockdale Lodge No. 61, Rockdale; Cameron Lodge No. 140, Cameron; Marlin Lodge No. 141, Marlin; and Burlington Lodge No. 235, Burlington. All are mixed lodges with both men and women members.

Also to have their officers installed on this occasion are the Starlight Herman Sons youth chapter of Marlin and the Tem - Bel junior chapter of Temple.

The Sons of Hermann, statewide fraternal order, operates a free youth summer camp for its junior members and a home for its aged members. Both are situated at Comfort, in the Texas Hill Country. The order's Grand Lodge is in San Antonio.

Rites Friday For Mrs. Annie Short

Mrs. Annie Bell Short, 85, died in Calvert in the home of her daughter Thursday morning.

Funeral services were held at the Marlow Baptist Church, 2 p. m. Friday. Rev. Cecil McBeth, pastor of the First Baptist Church in Calvert, and Rev. John Hart, pastor of the Marlow Baptist Church performed the rites. Burial was in Marlow Cemetery.

Mrs. Short was born in Milam County, Feb. 13, 1877, the daughter of Priestley and Susie Tindall. She had lived in the Marlow Community and Cameron until about a year ago when she moved to Calvert.

Survivors are two daughters, Miss Bernice Short and Mrs. George Leath of Calvert; one son, Jim Short of Cameron; 8 grandchildren and 11 great grandchildren; two brothers, H. C. Tindall and John Tindall both of Cameron; and one sister Mrs. John Hobson of the Marlow Community.

Green Funeral Home was in charge of arrangements.

sports herald

By James Hollas

The Yoemen travel to Livingston to take part in the east Texas town's tournament. The young Yoemen will take a 4-8 record into the contest.

Then next Tuesday they will forget the past record and start playing for keeps at the Yoemen take on Hearne in the first district game for both teams.

The Yoemen are improving each week and should be a real threat as soon as they achieve the needed experience. They have held their own in games with teams that had a year or so experience.

Cameron has always supported its schools and their sports. So this Tuesday night go and watch the Yoemen. At the half time the colorful Toy Yoemen will preform. And Francis Cox will have the swing band in action.

The gym is warm and comfortable and you will enjoy the game and the activities.

-sh-

A bunch of coaches were sitting around in a gab fest at the Rockdale tournament and the talk drifted around to Rockdale and football in general.

Rockdale's assistant coach, Eddie Cook, stated that they had played against some good backs but none as good as Cameron's Amos Doskocil. He said that Doskocil ran better and harder than anyone they faced this year. And he made the point clear when he stated that he thought that Doskocil was better than Robert Leech the all stater from Jacksboro.

This is not news to the Cameron fans as they have known Doskocil was a good back and one of those that we should be hearing a lot about in the years to come.

Tigers Win One Lose One In Rockdale Tourn.

Rockdale bounced back from the gridiron to the hardwood floors in fine shape as they won their first basketball game 56-46 over University High of Waco in the Rockdale Tournament.

Jimmy Killen was tops with 16 points and Nathan Baker was next wit hnine.

The win put the Tigers in the winner bracket with the tough Hutto team. Hutto, the eventual tournament champ dropped a last second shot and took the game 39-38. This time it was Dickie Summers leading the Tigers with 18 points.

The all tournament team consisted of Charles Nygrin of Hutto, Hank Fielder of Lockhart, Billy Lengefeld of Kyle, Richard Peevy of Lorena and Murphy Davis of Caldwell.

PTA Schedules Meeting Tonight

The regular meeting of the Cameron PTA will be tonight at 7:30 p. m. in the Ada Henderson Cafeteria.

The program will be Good Citizenship -- Responsibility Through Civic Participation. Representatives from student organizations, local civic clubs, school baord, and civic government will present needs and responsibility of civic participation locally.

Mrs. Schiller Will Speak At Meeting

Mrs. Frank Schiller will be the speaker when the Civic Garden Club meets Jan. 10 in the Recreation Room of the First Christian Church.

She will speak on "Horticultural Specimens to be Judged."

Hostess for this meeting will be Mrs. Alvin Dusek and Mrs. W. M. Fanning.

District Play Starts Tuesday

Full Slate Of Games This Week

There will be a full slate of basketball games in the Milam area this week as the teams hit full stride after some stopped for the holidays.

Cameron will make the long trip to Livingston for the annual tournament in the east Texas town. They will take on Colmesneu at 10:15 a. m. Friday. Then they will play at 3:15 or 7:30 that evening. Entered in the tournament are Liberty, Vidor, Huntington, Livingston, Deweyville, Livingston, B. Lovelady Woodville, Jasper, Kountze B. Groveton, Cleveland, Cameron, Colmesneu, C. E. King of Houston and Spurger. Finals will be Saturday night.

Then the Yoemen will start District play Tuesday night with Hearne in the Yoe Gym.

Ada Henderson is in the A & M Cons. Tournament Friday and Saturday. Then Monday they will start district play with Hearne. Both the 7th and 8th grade will play with the first game at 5:30 p. m.

Navasota will host a tournament this weekend and then they will meet Rockdale to open district on Tuesday. Rockdale will be in the Tournament and then will play host to the Rattlers.

Caldwell and A & M Consolidated will battle Tuesday to start district play.

Rogers will go to Lott the fourth and then to Holland on Jan. 8. Neither of these games are district play.

Rosebud is host to Bremond and then they travel to Grosbeck to start their district play.

McGregor Evens Series With Yoe

The McGregor Bulldogs evened the record with the Yoemen as they took advantage of a low scoring first half to win 34-29.

The Yoemen played tough defense but scored only 3 points the first quarter and five the second quarter. McGregor scored 14 points in the first half.

Billy Don Davenport led the Yoemen as he hit four field goals and five free throws for 13 points. Second was Merlin Lester with eight points.

The Yoemen took the first game 26-18 in the season opener for both teams.

The Yoe Jr. Varsity dropped the McGregor B. Team 35-26 as they made it two straight over the McGregor team. John Roskosky was tops with ten points. Larry Paul Manley and Judson Smith were second with nine each.

Rosebud Drops Yoemen, 48-41

Accuracy at the foul line and a strong zone defense helped the Rosebud Panthers overcome the Yoemen Saturday night. The score ended 48-41.

Cameron scored 17 field goals to Rosebud's 14 but the Black Panthers dropped in twenty free throws to take the game. The Yoemen led the game 10-8 in the first quarter and increased this lead to 30-25 at the half - time break.

But the jinx of a bad third quarter caught the Yoemen and they scored only four points as Rosebud dropped ten to take a slim one point lead. They kept up the scoring to increase this lead to seven points at the end.

Big guns for the Yoemen were Merlin Lester with 14 points and Billy Davenport with 12. Davenport has been coming along in the scoring department for the last two games as he has totaled 25 points for the two games. He had 38 points for the first ten games.

Harold Swanzy led the Panthers with 14 points. Gene Janes was second with 13 points.

The Panthers also won the first game with the Yoemen in Rosebud as they dropped the Yoemen 46-36.

What Will Fidel Do? . . .

The first big question mark of 1963 will be what Fidel Castro does to assert himself in Cuba.

Castro was stripped of his prestige throughout the Hemisphere when Russia bowed to the U. S. pressure to remove rockets from Cuban sites. All the dealing went over Castro's head.

Red China is making strong overtures to keep Castro militant, as well as alive. If Castro makes a spectacular bid to reinstate himself, it must come soon in 1963. If he does not, he may not see 1964 as "supreme Cuban leader."

His henchman, Guevara, is openly linking himself with the China bloc while Castro is left without any real influence in any direction. But that's the way of Red revolutionaries: if one scheme doesn't work, try another, with another force behind you.

With the return of the 1,100 plus Bay of Pigs victims to Miami, Castro has even more to worry about. Another revolt - invasion is possible now that internal strife is rampant in Cuba.

Guevara may be the man to take over Castro's fading hold. It will likely be with Peking's blessing, not Moscow's. In fact, Khrushchev may already have written Cuba off as one of his worst decisions.

Castro is the key to a spreading division of Communism. His demise may place Cuba with Albania, Yugoslavia and Red China in a tangle of communist power plays.

In The Service

JAMES CONNALLY AFB, Tex.- Lee R. Schattle of Cameron, has been promoted to master sergeant in the United State Air Force.

Sgt. Schattle is an electrical maintenance supervisor assigned to the 3565th Navigational Training Wing here.

The son of Mr. and Mrs. Henry J. Schattle Sr., Rt. 1, Cameron, he is a graduate of C. H. Yoe High School.

He and his wife, the former Barbara L. Guthrie of Detriot, Mich., have five children.

DECOY RANGE FINDER

Even experienced hunters find it difficult to accurately gauge shooting to range, especially from a duck blind.

Overcome this difficulty by setting out one decoy some 40 or 50 yards from the duck blind. Gauge your shots at incoming ducks by their relation to this decoy.

This way you won't waste shots blasting away at ducks over in the next county. Furthermore, the incoming ducks will pay no attention to a lone decoy range finder. They will come on in to your setting of decoys the same as usual.

ARCHERY TARGET

You can buy elaborate and expensive archery targets, especially the kind that is stuffed with hay and covered with bright oilcloth. But hard shooting soon fills any target full of holes.

So why spend a lot of money when an equally effective target can be made at home from an old tire, rags, and two pieces of tough corrugated board.

Fit tire opening with cardboard --one to each side -- then draw on bullseye, pack inside target with rags. Then start shooting.

Committee To File Reports

By Vern Sanford

AUSTIN — House Textbook Investigating Committee ended its work on a sour note.

"This has been a most disagreeable experience," was the "understatement" of Committee Chairman Bill Dungan of McKinney as he brought the gavel down on the committee's final session before the Legislature meets on January 8.

The five - man group is split five ways. As a result, they will file individual reports on the results of the committee's several stormy sessions.

In addition to Representative Dungan, the committee is composed of Representatives John Alaniz of San Antonio, Bob Bass of DeKalb, Nelson Cowles of Halisville and Ronald Roberts of Hillsboro. They took months of testimony concerning the contents of testbooks used in public schools.

As the final session ended, members were accusing each other of attending or not attending the now-famous Dallas hearing -- at which Ex - General Edwin A. Walker testified - "for political campaign reasons."

They did get harmonious long enough to decide to publish five individual reports, in alphabetical order, in one volume and not to include two petitions presented at the meeting.

However, these are the only points on which the committee arrived at a meeting of th eminds.

Roberts and Alaniz both maintained that the present system of testbook selection in Texas is the best in the nation. Alaniz charged that textbook hearings have been "dominated by the ultra right and the John Birchers."

Chairman Dungan and Cowles have not publicized their views yet.

Paul C. Vogle Jr. of Corpus Christi was one of the petitioners at the meeting. He urged continuation of textbook investigations.

Another petitioner, the Rev. William S. Arms of Austin, presented a "redress of grievance. Then he announced his intention to add 20,000 signatures to it at the upcoming Baptist convention in Fort Worth.

TICKET TAX MAY END

Texas Commission on State and Local Tax Policy, headed by Sen. George Parkhouse of Dallas, added two more recommendations to the long list of proposals it will submit to the 58th Legislature.

One was to repeal the admissions tax, which brought in an annual $553,000 from movie showings, operas, plays and other amusements before a recent court decision invalidated part of the proceeds.

Parkhouse said, "It seems obvious that the admissions tax as now drafted is a failure."

Also recommended was creation by the Legislature of a permanent tax study commission, to be aided by the Texas Reaearch League, and financed with a maximum annual operation fund of $5,000. The research league is a non - profit organization.

FARWELL BUDGET

Outgoing Gov. Price Daniel has proposed the largest budget in the state's history, for legislative consideration. He says the budget can be met without new taxes.

Daniel recommends spending $3,100,000,000. That is $347,000,000 more than the present appropriation.

His budget incorporates recommendations for salary increase in many state departments. State highway partolmen would be among those getting rasies under Daniel's plan. He suggested a starting salary of $6,000 a year -- $1,000 more than they get now. He decried the present policy of paying them on the same scale as city lawmen.

Daniel said, "These men frequently work around the clock and you can't expect such devotion from men who are paid on a 40-hour-a-week basis."

He also asked the 58th Legislature to boost salaries of state-employed physicians juvenile parole officers employees of the Texas Water Commission and the Railroad Commission and teachers in all levels of education, among others.

Basically, except for high education, the Governor's budget proposes continued operations at present levels for all state agencies and services, plus necessary funds to meet additional demands due to population growth.

COLLEGES UPGRADED

Daniel also urged upgrading of public junior colleges and state-supported universities, and recommended larger library appropriations and 16 per cent teaching salary increases -- two things college administrators have cried for for a long time.

He proposed that the 34 public junior colleges be allotted $16,000,000 for the 1964-65 school years. That is $3,000,000 less than administrators requested, but $1,500,000 more than the current appropriation.

Much of this increase would be used to cover $500 annual pay raises for teachers.

Daniel advocated $15,200,000 to cover a 16 per cent increase in teacher's salaries; $2,000,000 additional funds for research in the state's 20 state - supported senior colleges, and $2,300,000 additional for libraries.

He based his proposals on the recommendation of the Commission on Higher Education that tuition be doubled to $200 a school year. But he explained that 4,500 scholarships for $100 a year would be available, "to keep young people in college."

APPOINTMENTS ANNOUNCED

Daniel filled several vacancies on state boards and commissions, but said he would leave appointments on the University of Texas and Texas A & M boards to his successor, John Connally. These appointments are due to come up early in January.

He named the following to the board of regents of Lamar State College of Technology: Pat Peyton Jr. and Otho Plummer of Beaumont; J. G. Bertman Jr. of Liberty; and A. H. Montagne of Orangefield.

He appointed Sam W. Freas of Livingston as criminal district attorney of Polk County, to fill the vacancy caused by Sidney H. Adams' resignation.

Jack Jacobsen, Austin attorney, who served with Daniel as assistant attorney general and executive assistant in the U. S. Senate and at the governor's office, will succeed Dr. W. R. White of Waco on the Public Safety Commission.

Dr. White and Fred Hartman, editor - publisher of the Baytown Sun, were appointed to the State Library and Historical Commission.

He re - appointed Clifford L. Davis, personnel director for the city of Amarillo,and Dan D. Nixon, Lampasas' ciyt manager, to the Municipal Retirement Board.

Daniel also named to the Lower Concho River Water and Soil Conservation Authority Joe Brosig of Paint Rock; Lambert Abernathy of Millersview and W. R. Loveless of Eden.

PERSONAL INCOME CLIMBS

Texans entered the final two months of 1962 with their personal income up 4.5 per cent over the first ten months of 1961.

This year, according to figures released in Austin by "Business Week," Texans' total personal income for the first ten months of 1962 was a whopping $16,854,000,000.

Last year during a similar period it totaled $16,105,700,000.

PRISON PRODUCE

Texas' Department of Corrections did a whooping big job of farming in 1962.

Asst. Director Byron W. Frierson who is in charge of the vast farming operation, reports that the Department either "sold for cash or consumed, utilized or stored for use, in lieu of purchased items," $4,583,000 in farm products.

Cottin is the big cash crop on the prison system farms.

"Our 10,000 acres of cotton this year averaged better than a bale per acre for a total value of $2,100,000" says Frierson. "And our rice crops put $35,000 into the state treasury with $13,650 worth held for consumption."

Edible crops had a total value of $708,287. Total value of cattle slaughtered was $384,660.

More than 11,000 hogs were raised for pork.

Other farm products included eggs, milk, turkeys and chickens.

$1,000,000 SLANT

The Attorney General's office reports that over $1,000,000 monthly oil allowable was cut off in the East Texas and Hawkins fields because of deviated - well discoveries.

THE OLD PHILOSOPHER

Philosopher Says 1963 Is Fraught With Dangers, But So Was 1962, 1961, or 1800

Dear editar:

According to an article by an expert on world affairs which I read last night to rest my mind after mapping my plans for 1963, you can spin a globe of the earth and point your finger at it and regardless of where it comes to a stop, there'll be a crisis there.

This was supposed to convince you that times are serious, the world's in a ferment, and the days ahead are uncertain.

All this proves to me however is that this expert's not very familiar with the world's record.

There never was a time when you couldn't point your finger at any spot on the globe and show up a crisis. Even if you missed a country's capital and got only a farm house or an apartment in town, there'd still be a crisis there and nine times out of ten it'd be financial, the same as it is in the major trouble spots around the globe.

What this expert ought to realize is that if most individuals can live with crises all their lives, the world ought to be able to also. A majority of crises can be solved by money, but there never is enough money to whip them all at one time.

But what I started out to say was that I have now mapped my plans for the 1963 farming year. What most people don't realize is the number of gambles a farmer faces. Oh sure, everybody knows a farmer has to gamble with the weather, insects, and the market, but what some people don't seem to realize is that a farmer has to gamble with himself. Just because the weather is pretty and the tractor is ready to run, is no sign I am. How can a man predict that he'll be ready to fight when the insects are? Who wants to go fishing when it's raining?

My plans are all made, but they consist mostly of doing what I feel like each day after I've carefully weighed the prospects.

Sue, 1963 is fraught with uncertainties. So was 1962, or 1961, or 1960 or 1800, or the year 1. Let her rip.

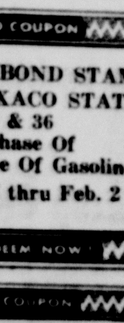

Yours faithfully,
J. A.

SCIENCE IN YOUR LIFE

Anti-Vertigo

With years of practice, ballet dancers learn to control dizziness by focusing on a single object while they spin. Otherwise, their marvelous turns would leave them too dizzy to stand. But people whose world is thrown out of balance by illness must find other ways of staying on their feet.

Vertigo -- the medical name for this sensation -- may result from infection in the balancing mechanism of the inner ear, or from headaches and hardened arteries. Whatever the cause, vertigo victims experience acute distress as they try to keep their bearings in a constantly shifting landscape.

Bonamine, the well-known drug used to prevent car sickness (and other motion ills) has been combined with nicotinic acid, a vitamin that dilates the blood vessels, to form Antivert. The combination is extremely successful in combatting symptoms of vertigo.

Often, ringing in the ear and loss of hearing accompany vertigo. New York physician Harold Menger reports that all his patients who complained of ear-ringing improved with Antivert. At the same time, their sense of hearing improved.

When treatment is started, Dr. Menger says, patients often feel a slight tingling and blushing sensation of the skin. This reaction, he has found, almost always means that treatment with the drug will be successful.

CAKE IS NOT ALL SUGAR

And Even If The Best Ingredients Are Used They Need Careful Blending

That's the first thing a young cook learns, because it doesn't take much of an error to spoil the integration of flour, eggs, sugar, flavoring. Thoughtlessness or carelessness in timing -- too hasty or too little effort in blending and all the ingredients . . . all the efforts are spoiled beyond repair.

So, too, it is with the way we conduct our lives. Ambition, hard work, long hours may bring us sucess -- but without careful blending we can know no happiness.

We must add a wholesome enjoyment of leisure; good friends; and a sense of spiritual value which can be found and nutured in only one way -- and that is by regular attendance at the church of our faith. Whether you are Protestant, Catholic, Jewish or Brahmin, making the teachings of your church part of your life and you will best be able to fullfill your responsibilities and realize richer joys; more than ever now, in these turbulent tmes.
